

Locate Your Lost or Stolen Smartphone or Computer

In the age of technology, Smartphones and computers are being stolen more than ever. Many times these Smartphones are taken by force and/or fear, raising the crime of theft to the level of a robbery, a felony crime. Sometimes, these Smartphones are taken during burglaries from cars or homes. Apprehending these suspects and returning these phones to their rightful owners is difficult. The instructions in this poster can help you get your phone back if it is ever lost or stolen.

Find My iPhone Find My iMac

Find My iPhone and Find My iMac are free for anyone with an iPhone 4, 4s, or 5, iPad, 4th generation or later iPod touch (iOS 4.2 required) or iMac computer. This application will allow you to find your phone or iMac using any computer using the onboard GPS technology. You must set up Find My iPhone or Find My iMac in the iCloud preferences on your device.
